LABOR PARTY GAIN PRESAGES DEFEAT BALDWIN CABINET

British Elections Reduce Conservative Majority in Early Count-Mac-Donald May Gain Post.

London, May 31 - (Friday) (United News)-Ramsay MacDonald's labor party was making great gains in the number of its seats in the house of commons and the conserva tive party was lagging well behind in general election returns at a late hour this morning.

With more than one-third of the contests decided, there was a growing possibility that the labor party would increase its representation in the com mons to such an extent that it would be able to form a government. At 3530 a.m. 212 of the 606 seats

At 3430 a. m. 212 of the 606 seats contested were reported complete.

The labor party candidates had won 116 of the 212 seats, representing a gain at the expense of the other parties of 54 seats. Only three seats held by the laborites in the last parliament had been lost.

Conservatives Losing.

The conservative party, now in power under Prime Minister Stanley Baldwin, had won 79 of the 212 seats. The conservative candidates had lost 50 seats which they previously held and had gained but one at the expense of another party.

The liberal party had 13 seats of the 212, representing a gain of seven.

The gain, however, was offset by the loss of 10 seats which they had preously held.

Blackmail Schemes Involving Prominent Macon and Georgia Men Charged to Mrs. Powers.

WILL ASK ELECTRIC CHAIR FOR WOMAN

Insanity Will Be Basis of Defense Plea, Counsel for Aged Boarding House Keeper Indicates.

BY L. A. FARRELL, Staff Correspondent

Macon, Ga., May 30. - Murder, blackmail and arson are laid at the door of Mrs. Sarah Powers, Macon's 71-year-old landlady, pictured by police as a sheep-faced, wolf-hearted death plotter who sits tonight in her solitary cell in the Bibb county jail and moans, "There is nothing ahead for me but the electric chair.

Assistants of Solicitor - General Charles G. Garrett moved tonight for indictment of Mrs. Powers and her weak-minded, confessed hired assassin. Earl Manchester, 21-year-old itinerant Canadian, at a special session of the grand jury next Tuesday and their immediate trial for the murder of James W. Parks, orphan printer, who Manchester and Mrs. Powers have confessed the former slew at the behest of the latter in order that the widow might collect \$14,000 on a double indemnity insurance policy which she had obtained. Police and sheriff's deputies are investigating the tangled history of the woman's life and tonight revealed excerpts from it which rank among the most sensational in the istory of Georgia.

Solicitor Garrett late today asked that a special term of Bibb county superior court be called early in June to try the pair.

Blackmail Schemes.

In their widening investigation of Mrs. Powers' fast appearing dramatic life, the detectives also say they learned that she numbered among the victims of her alleged blackmail schemes several prominent citizens of middle Georgia, including one or two

"We have not gone into these minor things much," one of the detectives assigned to the case said tonight. "With so serious a charge of murder against her it would be folly for us to work the case. folly for us to waste time on things which do not carry such extreme punishment. We are busy right now with making certain that she will not be able to beat down the evidence against her on the murder charge."

Likewise, the detectives were hold ing arson charges which they said could be lodged against Mrs. Powers as the result of mysterious fires on property which she owned and carried insurance. Two such instances were recalled and young Manchester in his cell at the jail said that in addition to coaxing him to murder Parks, Mrs. Powers had begged him to burn a house she owns in the south section of the city but which he said

he had refused.

Both state and defense, were certain that Mrs. Powers and her confessed hired assassin, Earl Manchester, 21-year-old wandering Canadian, would be assessed the death penalty unless the defense succeeded in obtaining mercy.

INDICT WRONG MAN

Grand Jury Returns Auto Theft Bill.

Valdosta, Ga., May 30.—(Special.)—At a called meeting of the grand jury yesterday it was found necessary to destroy one or two indictments found last week and return

new ones.

In the bustle of the work last week, and while separating the wheat from the chaff in the way of evidence, an intlictment was returned against the wrong man in an automobile theft case. The error was quickly remedied, and the indictment returned at the second session will prove effective in holding the right party, according to the solicitor-general.

PIMENTO PEPPER POPULAR CROP IN BUTTS COUNTY

Jackson, Ga., May 30.—(Special.)—Owing to heavy inroads by the boll weevil and the uncertain outlook for the 1929 cotton crop, farmers of Butts county are showing much interest in the pepper crop this year. Seven hundred acres of pimento peppers are being grown under contract for the Jackson canning factory.

The seasons have been favorable for growing out large, stocky plants and for setting the plants in the fields and the crop just at this time is the most promising in the history of the industry in this section. Demands for acreage have been heavier than could be handled by the local canning factory.

Pimento pepper is an important crop in a number of middle Georgia

Melons To Move.

Themasville, Ga., May 30.—(Special.)—Melon shippers of the two towns of Barwick and Pavo, on the eastern line of Thomas county, expect to start moving melons by June 10, with a scattering car or two possibly earlier than that date. Acreage planted in this fruit this year is practically the same as was planted in 1928—which means something like 1.000 acres growing melons in each neighborhood.

Harold Toney, 9, Ran in Front of Car Driven by W. D. Rice, Reports State.

Running from behind a parked truck on Whitehall terrace near Rawson street Thursday morning into the path of an automobile driven by W. D. Rice, of St. Petersburg, Fla., Harold Toney, nine-year-old son of Mrs. James Toney, was killed almost instantly, according to police reports. The lad, one of triplets, was picked up by Mr. Rice and taken to a near-by residence, but he was dead before the police and a Grady hospital ambulance arrived.

the police and a Grady hospital ambulance arrived.

Members of the family said that the boy was doing an errand for his mother at the time of the accident, while his brother, Hansell, and sister. Helen, were at home having breakfast. Mr. Rice was proceeding at a moderate speed when young Toney, in an attempt to join a companion across the street, ran in front of the machine, witnesses reported.

The driver will face Recorder A. W. Callaway this morning on a reckless driving charge. He was released Thursday after posting \$1,000 bail.

REMEMBER the big, red apples that hung out over the road, the day that Dad took you motoring 'way out in the real country? You know, the time you saw the little pink pigs scampering under the trees?

about You an apples

an' two freckled boys

Well, when those apples got to be as ripe as ripe...they were picked by a man and two freckled boys in blue overalls and big, floppy sun-hats...

and they were put into clean, wooden barrels and driven, bumpety bump, over the very same road you were on, to the railroad station.

And, by and by, those apples got to the big, sunny Lippincott kitchen, and there they were pared and cored

and cut and washed 'til they looked like a big heap of snow, and smelled like a flower garden.

Then they were put into a great, shining pot, along with lots of fresh, sweet apple juice and real sugar-cane sugar and all sorts of delicious spices from far over the ocean...and they boiled and bubbled and boiled and bubbled until they got all thick and buttery and

chocolaty-brown... And if you go right this minute into the pantry, there you will see these very same apples in a big, glistening glass jar with a picture of a ripe, red apple on the front of it! Lippincott Apple Butter!

And if you ask Mother, she'll spread a big slice of bread with it, thick and smooth, for you to eat, for Mother knows that nothing in all the world is so good for you as the pure, delicious apple butter made by Lippincott.

And that's the end of this story, and a pretty happy end it is-isn't it?

Your Lawyer---

As a people, the American nation is not forgetful of its deep and lasting obligation to the legal profession. From the time of Patrick Henry until now, the lawyer has been the very voice and spirit of our independence, our liberties, and of all our civil and political rights. In every forum, in every legislative hall, before every tribunal, he has been our advocate.

We should be no less mindful of the indispensable character of the lawyer's services to us as individuals, in what we too often regard, until it is too late,

the commonplace affairs of daily life. As an advisor, counselor, and guide, he is needed at every turn.

"A stitch in time saves nine." If you have not one already, choose your lawyer now. Consult him; confide in him; rely on him. Thus you will avoid complexities, entanglements, disappointments-thus you will steer safe and straight between the rocks of misunderstanding and confusion to the shores of success and satisfaction.

He is one whose place no other can take-your lawyer.

MEMORIAL SERVICES HELD AT MARIETTA

Several special interurban cars were required to bring visiting crowds from Atlanta to the memorial exercises.

Wednesday passed the enabling act looking to the location of a branch of the National Soliders' and Sailors'. Home somewhere in the southeastern states.

The project has been for some years the special objective of the Atlanta camp of Spanish war veterans. They have stuck to their propaganda for it despite the fact that many Atlanta leaders of business who should be victally interested in the project have been indifferent to it.

But these veterans are growing old, now, and the average of those who volunteered in 1898 is how 54 years. They are increasingly needing hospitalization and the care of a national refuge. And since the World War such a home here in the southeast has become imperative and the congress has at last agreed to that.

We veterans have time and again world in national conventions in favor of locating the home in or near to Allanta as the logical site for it from every valid consideration.

Memorial exercises for those war dead who lie on the sloping hillside of the National cemetery in the last great sleep were said here today on a program that included representation from practically every war and veteran organization in the country. William M. Hope for Peace.

"There is a great hope, for since this day a year ago, a solemn declaration has been proposed by Americate to the world and has been signed by 40 nations. It states that they solemnly declare in the names of their respective peoples that they condemn recourse to war for the solution of recourse to war for the solution of recourse to war for the solution of recourse it as an instrument of national controversies, and remounce it as an instrument of one another.

"They agree that the settlement or solution of all disputes or conflicts of whatever nature or of whatever origin they may be, which may arise among them, shall never be sought except by pacific means."

"That is a declaration that springs from the aspirations and hearts of the many and women throughout the world. It is a solemn covenant to which the great nations of the world have bound themselves.

Harkness and Robinson, according to police, have admitted breaking into a tool house at the Hapeville school, where \$75 worth of paints was taken, and also a tool house at an apartment building in Druid Hills, where a large quantity of tools was taken.

Mitchell is said to be a local lumber truck driver and to have acted as a "spotter" for the other two. He is alleged to have "spotted" the tool houses during his daily hauls and reported to the other two who broke into the places at night.

Police hope to connect the negroes with several other recent robberies of a similar nature.

GEORGIA PEACHES

SEIZED IN FLORIDA

UNDER LATE RULING

Tampa, Fla., May 30.—(P)—Sixty-seven baskets of Georgia peaches destined for the Tampa market were seized on a highway leading into the city today by state plant board inspectors and destroyed under authority of a recent plant board ruling barring all fresh stone fruits from Florida from outside states. The seizure was the first reported under the new ruling. Plant board inspectors explained that the order was not directed at Georgia alone, but barred all fresh stone fruits, such as plums, nectarines and apricots. It was adopted, they said, to prevent introduction into the state of the oriental peach moth, the plum curculic and the San Jose scale.

The Model Laundry Celebrates Tenth Anniversary Under Original Management

Men who organized concern ten years ago have piloted firm throughout its years of progress to the present outstanding place it holds today!

Modern Plant and Facilities Assure High Grade Service

The Model Laundry has kept pace with the new and desirable features of plant efficiency. Being ideally located within easy and quick accessibility too, and from all suburbs and parts of the city, it affords the facilties for rapid service that would otherwise be impossible. The physical construction is also such that it conforms to exacting and specific requirements which lend the utmost support to the operators and their ability to turn out the highest quality workmanship.

All the modern mechanical facilities that are known to the business are provided in the rapid and sanitary handling of washes. A special department is provided for the family laundry while institutions are provided a department that functions alone in their behalf—thereby assuring each class of business a service distinctively adaptable to its individual requirements.

Ten years of progressive service has brought its development in clientele. Homes and families in all sections of the city and suburbs, as well as many of the leading business, civic and social institutions are among those we serve today. Those who demand promptness and quality workmanship have been responsible for our up-building, and we thank them for the support of the policies of progressiveness which have been unhampered by our independence. On this tenth anniversary we offer a renewal of our pledge to the public—a pledge which has made hosts of friends and kept faith with them throughout the years we have served.

These two men--started, perfected and still own and operate The Model Laundry.

Ten years ago Geo. Griffin, Jr., and C. Wheeler Mangum organized the Model Laundry in Atlanta. It was their eagerness to present a laundry service that outdistanced all others in quality workmanship and satisfaction to patrons that lead them to believe in the possibilities of extensive developments in behalf of this section.

From the very beginning, their ideals of progressiveness, dependability and satisfaction were linked together in a steadfast organization policy. And on the foundation of seasoned business experience and integrity of its two leaders—The Model Laundry began its career.

The intensity with which they took hold of the task of building the clientele and service facilities of the organization merited progress, and naturally that progress was forthcoming. Each and every detail that tended to increase efficiency, serve customers better and create greater satisfaction was a point considered and applied to the regular activities of the company. Every stone was turned along the road of development and progress in the laundry business, and after ten years of forward march the men who started and perfected the organization still continue in ownership which through its independence (in the past and in the future) assures patrons the satisfaction of dealing with Atlanta's most outstanding laundry.

Our corps of responsible, courteous and conscientious driver-salesmen, equipped with trucks of a most dependable kind are, with the cooperation of our modern plant facilities desirous of meriting your friendship and patronage by satisfying the most exacting laundry requirements.

Multilateral Pact Greatest Moral Force Ever Created, Ex-President Says.

Philadelphia, May 30 .- (P)-Former president Calvin Coolidge, writing in the June issue of Ladies' Home Journal on "Promoting Peace Through Renunciation of War," declares that the Kellogg multilateral peace treaty "is the greatest moral force dedicated to peace which has ever been created.' The treaty, he said, cannot be used

as a substitute for national defense, but only as a supplement. "As the nations come to place a "As the nations come to place a proper reliance on this covenant, writes the former president, "many suspicions will be dissipated. It has been customary for them to watch each other very closely, in some cases even to spy upon each other, in order to learn what military measures were being taken. This was always with the thought that such measures might indicate a hostile intent. If a nation was supporting an army and navy barely necessary for domestic and international police purposes, it was under the suspicion of preparing for aggression against its neighbor.

Condition Would Disappear.

Condition Would Disappear. "With the adoption of the peace treaty this condition should disappear, so that the people of one country will have no more suspicions concerning the military forces of another country that the people of New York have concerning the police force of Chicago or Montreal."

the picturesque little city of Oxford holds a position of responsibility and honor with the public health service of the United States government, being head of the serum inspection department. It is the duty of Dr. Branham and her assistant to examine all typhoid, meningitis and other serum used in the United States, all manufacturers of these serums submitting samples which pass through their capable hands before being distributed for use.

The fact that this Georgia girl's rise to a place of grave responsibility has been so meteoric attests her brilliance and ability. Graduating from Wesleyan college at Macon. she taught at the Atlanta Girls' High school. During a summer course at the University of Colorado, she became interested in bacteriology, and due to her efficiency in the subject, she was employed as an instructor for three years in that institution. Further pursuing the study of bacteriology, and due to her efficiency in the subject, she was employed as an instructor for three years in that institution. Further pursuing the Howard Ricketts fellowship at that institution. Following one year of intensive study at the University of Rochester, N. Y., Dr. Branham received the appointment in the public health service in Washington as a tribute to her thorough preparation and complete mastery of the subject of bacteriology.

Dr. Branham was widely entertained at a series of informal social affairs during her visit in the city, and she received a cordial welcome from a host of admiring friends. Mrs. Mal-colm Dewey was hostess at a lovely tea planned in her honor Wednesday afternoon at her home on Springdale road. Invited to meet her were a group of former Oxford friends who now reside at Emory university.

"Then you have learned something," replied Dipper.

"And did you fly down to the Big River?" asked Peter.

"No." replied Dipper. "I swam down the Laughing Brook."

"Why didn't you fly down there?" Peter inquired.

"Because," replied Dipper, "there is hardly room here in the Smiling Pool to get into the air. Of Course, I could have done it, but it was easier to swim down to the Big River, where there is plenty of room."

Peter thought this over for a few

London, May 30.—(P)—Walter Hagen's exhibition match with Archie Compston at Moor Park tomorrow has stirred up great interest among British golfers principally, it appears, because Hagen attempted to cancel it.

Hagen arrived in London early this morning and practiced this afternoon with Horton Smith and Joe Turnesa. The British open champion will enter his match with Compston tomorrow without having played a single shot over Moor Park's course since his 18 and 17 defeat by Compston there last year.

Compston has been practicing there steadily all week and declared blusself in fine form and confident of beating the American again.

Memorial Day Losses Plunge Spiller Entry to Seventh Place.

By Ralph McGill,

Staff Correspondent. Nashville, Tenn., May 30. Over in one corner of garish Sulphur Dell the flag was flying at half mast Thursday afternoon. The Volunteers had just finished burying the Atlanta Crackers in two yawning graves. A hilarious crowd attended the obsequies. The scores were 7 to 6 and 4 to 1. scores were 7 to 6 and 4 to 1.

It is a pity that some one did not tell the Volunteers what a terrible bull club they were a few months ago. As it was, a kind and tolerant lot of crities failed to do just that and they never found it out. They have won seven of their last nine games and are going along as if they meant it.

It was this fellow Dick Wade who contributed the most aid to the Cracker cause. The scoreboard was barren of runs in the first game until Dick Wade whacked one over that short right field fence. There was one man on ahead of him.

NEWCOMERS STAR.

A couple of Cracker newcomers performed in heroic fashion in the double disaster. Chief Wilkins, who has been on the squad but a short time, relieved Climax Blethen in the first agame and stopped an attack that was raging when he went in. Climax Blethen was most emphatically not right. He was greeted with six base hits in that first inning and the wonder is that more than four tallies did not clatter home. Chief Wilkins got the side out with one pitch, John Anderson flying to left field. He went in cold. After the third inning they got but one hit off the chief. He was bearing down.

Don Brennan pitched a nice ball game. He had one bad inning, but Don was trying to keep from throwing a bome run ball up there. Most pitchers know how to work in the dell where the fenees are big brothers to the hitters who can get a ball up high. In the effort to keep the pitches low Don Brennan lost his control in the fifth inning and some pinch hits got in four runs.

I am not at all sure that Bob Parham's name should not be added to the list of the newromers who played real baseball today. He was stuck out on the right field dump in the dell. The bank in the dell makes the one

Boomer's Par Shattering Round Brings Out Tales of Low Scores

Pro Had 10 Putts On 9-Hole Round

Walter Hagen Once Carded 62 on Florida Course—Bob Was Great at Sunningdale.

By Harlan Rohm.

Chicago, May 30.—The "Boom! Boom!" of Aubrey Boomer's 61 on the St. Cloud golf course has boomed around the golfing world, even to the almost unnecessary detail that he nearly did "faw down" from nervousness when he had holed his last putt. Superlatives are useless: it stands starkly as one of those unbelievable things that really happened

All the youthful British pro did on those 18 holes was ten pars, six birdles, and two eagles. Appended hereto is the table of the length of the holes, par, and Boomer's uncanny round, in which he used only the last nine holes. Yet there are other bursts of golf which compare to that of the young pro at the St. Cloud club, who violates one of the duffer's cardinal principals of "slow back" with one of the fastest lashing backswings in golf. True, there never has been another

selection that shows refreshing originality-Stiff and Soft Straws-they're all here, in tans, grays, sands and naturals. The comfort-

that proclaims their wearer a

man of discrimination.

Those who have been struggling to crack 100 this spring on various golf courses between two of our best known oceans, have had quite enough to make them bitter, morose, sour, discontented, melancholy and perhaps a trifle upset.

Here are a few almost incredible performances that have caught their startled visions

Leo Diegel and Al Espinoza-66-at Moortown. Leo Diegel-65-at Moortown.

Walter Hagen—67—at Muirfield, in the British open. Glenna Collet—out in 34—at St. Andrews, against Joyce Wethered. Horton Smith—two successive 66s—at St. Cloud, in the French open. Aubrey Boomer-61-at St. Cloud-length, 6,500 yards.

When thousands of golfers strained and cracking every aching nerve in their bodies are turning in 108s, 112s and possibly 122s or more you can see how they must feel about the situation at large when they inspect these incredible figures in the low or early or middle 60s.

61 on a full length course in a major No wonder they look around for prussic acid, a gun or a sharp Walter Hagen's 62 in a Florida tourknife. It is an event in the lives of more golfers than you might imagine Walter Hagen's 62 in a Florida tour-nament a few years ago, and some scores in the high 50's on short courses. Yet scores within a putt of those two marvelous rounds have hapto break a hundred. When these follow the figures that indicate a 33 out and a 28 home on a fairly long course, the gross total being 61, you may think you can imagine their feelings, but unless you are a golfer, hoping some day to break 100, you can't.

The duffer now and then can get his 3 or possibly his 2. But when this happens there is always the brooding shadow of an 8 or a 9 hanging over his beleaguered head, in the knowledge that any given moment he will find himself in a bunker or in a ditch and the supply of balm left in Gilead wil be invisible to the naked eye from that spot on.

A YEAR AGO IN PENNANTVILLE.

At this date a year ago the Yankees were in the act of opening a still larger gap between their ranking and the rest of the field. They were galloping on their way to a thirteen-gabe lead, and even around June 1 the pursuing Athletics could barely see their dust.

The situation has been quite different this spring. Connie Mack's young men have at least gotten all the seasoning they needed under the

young men have at least gotten all the seasoning they needed under the fire, with a much better all around pitching staff than the Yankees can show.

The Athletics last summer had an almost hopeless lead to tackle, but when Pennock, Lazzeri and others were wounded or rendered unfit, they closed the open space in a hurry. This season they have given themselves no such obstacles to overcome. A runner can be so far behind that he can wear himself out catching the leader and have little left for the stretch. The Athletics won't be in that condition when an other September finish comes in sight. They may have their dips or slumps, but they have put away more early insurance than they could do last year. At this time last year Pittsburgh's Pirates had about the job with Cardinals, Cubs and Giants setting the pace in a bunch.

If you turn back as far as 1927 you will find the Cardinals have always been somewhere in the top group. They are a better ball club than many believe them to be. The early slump of the Giants has given the Cubs a better chance, but even the Cubs have to watch this Cardinal cluster again.

OPENING AN OLD ARGUMENT.

One of the best known of the fight followers brought up the old Tunney-Dempsey argument from a new angle a night or two ago.
"I haven't any prejudice on either side," he said, "for I happen to like them both. But there is one point in the fight game that many overlook. This point is that while A might whip B, and B might beat C, C, in turn might whip A. Styles play a big part in the final result. Gene Tunney as he was against Dempsey at Philadelphia, or against Heeney, would have had a hard time against Willard. Williard might have beaten him with his greater reach and strength and size, for Willard had a good left hand. The chances are a Willard-Tunney fight would have been terrible to look at. Dempsey really stopped Willard in a round. Yet don't believe the Dempsey of Toledo could have beaten the Tunney who met Heeney. Dempsey was at his best against a big, slower, target. But he was never a good enough boxer to get to Tunney the way the latter fought against Heeney. Tunney fought poorly in Chicago, in his over-eagerness to knock Dempsey out. He even led with his right hand time and again, and missed most of these swings. Dempsey couldn't get to Tom Gibbons at Shelby in fifteen rounds, and Gibbons was never as good a boxer as Tunney was in his last fight. Dempsey was only twenty-eight when he met Gibbons and that should be a man' fighting prime-the peak. But there never was a fighter in ring history who could topple the giants of the game as Dempsey could. Fred Fulton might have worried Tunney a lot, but he only lasted eighteen seconds against Dempsey. The Tunney type was always the hardest for Dempsey to handle, since a good boxer can nearly keep a rushing slugger off balance.'

"Why do so many fighter go goofy" asks H. F. S. One reason may be that the human brain was not devised for the almost exclusive purpose acting as a punching bag. The average brain has trouble enough functioning without being scrambled up.

KEECH WINS **AUTO CLASSIC**

Continued from First Page. minutes and 45 seconds due to his inability to get his motor started again. While Meyers was frantically working over the motor, Keech shot into the lead, retaining it to the end.

Moore Is Luck's Victim. Keech, driving a rear drive car, was fourth at the first 50 miles, tenth at 100, seventh at 150, fifth at 200, third at 250 and second at the 300 and 350-mile marks, then he went into the lead and was never headed.

Misfortune descended on Lou Moore, of Los Angeles, whose car, piloted by a relief driver, was forced to stop with only five miles to go and with second place apparently clinched. Moore jumped into the car and started a mad rush on his last two laps but a connecting rod burned out on the back stretch and he was forced to quit. The stop cost Moore exact-ly \$10,000, second prize money. Meyers' time was 5:13:49:21 and

Meyers' time was 5:13:49:21 and Gleason, in third place, finished in 5:20:10:46.
Carl Marchese, youthful Milwaukee, Wis., driver, finished fourth, while Speed Gardner, another Philadelphia driver, was fifth and Fred Winnai, also of Philadelphia, sixth. Louis Chiron, of Paris, France, one of two foreign entries and 1928 European champion, finished seventh with Billy Arnold, of Chicago, eighth. Cliff Bergere, of Los Angeles, was ninth and Fred Frame, of Philadelphia, was awarded tenth place. He was flagged down without finishing.

Other Crashes.

Experts consider it miraculous that only one driver was killed. Cliff Woodbury, of Chicago, an audacious dirt track driver, narrowly escaped death when his car crashed into the northwest turn retaining wall on the third lap. Woodbury escaped with only a shaking up and went back into the race as a relief driver. Jules Moriceau. French driver, also was in a smashup when his car turned over as he was finishing his 100th mile. The car, piloted by Deacon Litz, ran off the track on the 56th lap at the time he was in the lead. It was so badly twisted that he was unable to resume. He won \$4.900 in lap prizes, however, and two other drivers were in smashups and fortunately escaped.

The day was perfect for racing, but blistering heat for the spectators.

Lanky Hank Was First Ball Player to Enlist. Trumbull Unearths an Ancient Verse.

By Walter Trumbull.

(Copyright, 1929, by the North American Newspaper Alliance.)
New York, May 30.—Memorial Day leads us back to the war, and that makes us think of Henry Gowdy, now a coach with the Bost

Gowdy, to the best of recollection, was the first big league ball player to enlist. He became a sergeant and a good one. I think that the only bitter memory Hank has of the war was the occasion when a general yanked him out of a bed he had discovered in a shell-torn chateau. Gowdy gave him the best argument possible, but it was like arguing with an umpire. There was no chance to win.

Gowdy got into the army before 1 did, and the best and the worst 1 could do at the time was to write some verses about him. Perhaps they weren't such hot verses, but I remember a stanza which ran:

When you tell our allies "Howdy,"
We'll be proud to hear them say,
"Here comes lank old Henry Gowdy,
Hitting for the U. S. A."
Cheerfully they'll find you grinding,
Always game to take a chance

There in France.

There appears to be small doubt that there will be a great race in the National league this season. The further it goes, the better it looks. Not only does it look as if four first division teams might come home under a blanket, but the second division teams are likely to be bunched.

Boston has taken somewhat of a nose dive lately, but the Braves will win some more ball games and their good start will always he as asset no good start will always be an asset, no matter where they finish.

plight of the titular American Yankees is rather embarrassing for those who a month or so back made predictions that Huggins and his boy friends would again triumph in a one team American league race. But the end is not yet. Various factors are going to assert themselves as the race runs its course, and to give up at this stage on the present world's champions would be the equivalent of forecasting a 1929 pennant for Boston's rolled down Red Sox.

The Yanks are in their present predicament because of one deficiency. Their pitching has been weefully weak. It is the very thing Huggins expected, but even in the face of this expectation he insisted the Yanks were the logical pennant winners for 1929. What he was doing was this—he was making allowances for the slow starting of men who have been too long in service to get settled before warm weather sets in. He undoubtedly thinks his expectations will be realized. His reasoning is sound.

PARHAM HITS WELL.

Not only that but Bob Parham got a hit and a sacrifice fly in the first game, and two singles in the second. That is according to my score sheet. As this is written the official score isn't out but Parham got three hits as sure as the games were played. He was robbed of a home run in the first game, Horn making a great catch in deep center of his long drive. What is more important, his second two were off the delivery of George Milstead, the Volunteer southpaw who

is coming to be quite a pain to the Crackers.

It was only last Monday that he shut the Crackers out in the second game of a double-header at Spiller field. And here he bobbed up on Thursday and would have repeated the shutout had it not been for Dick Wade's four-ply lick over the right-field fence.

That first game saw old Jim Poole, the ex-patriot of Spiller field, doing quite a bit of damage to the Crackers. Jim, who couldn't hit a lick in Atlanta, has found a couple of brothers in the banks and short fences in the dell. They do say that every morning Jim goes out and shakes hands with the fence and the steep banks. He can hit pop flies against them and they bounce them back for two-base hits. In the dell it is difficult to get anything but doubles on hits inside the park. They all bound around drunkenly. How Jim and his brothers conspired and he got a couple of those synthetic doubles before the chief got hot. The chief was pitching real baseball. They got four off Blethen in the first and three off the chief before he got warmed up. After that it was too bad.

front was spread out over yester-day's doubleheaders so that few of the members derived much advan-tage. Only Goose Goslin failed to first game here this afternoon, 9 to 0. Van Alstyne held Chattanooga to 4 hits.

The second game was called at 3-all at the end of the fifth, when a storm broke up the game. The Barons had scored three more runs in their half of the sixth, but the rain broke before the Lookouts had finished their half and the score was reverted to the end of the fifth.

Love and Kirsch had waged a nice pitchers' duel in this abbreyiated affair.

A. Moore got a home run, triple and single in the first game.

SMOKIES BLANK HORNETS. Knoxville, Tenn. May 30.—Knoxville defeated Charlotte, 4 to 0, in an abbreviated game here this afternoon. A heavy rain at the end of the fifth inning halted the Memorial Day doubleheader, and the field was too wet to continue. Two games were slated for Friday afternoon.

Johnny Walker, southpaw, held the Hornets to a single in the five-inning fray. The Smokies collected nine hits off Petty. Pal Osborne hit a homer with two on in the fifth.

Bruco Caldwell, former Yale foot labelled the club a "one-man pitching staff" proposition. Pipgras hurls a one-hit game and Pennock returns to his old time form.

Berlin, May 30 .- (A)-Determined to stick to motor boat racing in the future regardless of the fate of his world automobile speed record of 231 miles an hour. Major H. O. D. Segrave arrived here from London by airplane today to pi'ot his crack speed boat. Miss England, in the interna-tional races on Templiner lake, Pots-dam, Saturday and Sunday. Segrave declared the promise he made in America to desert automobile

racing after smashing all speed records in Daytona Beach, Fla., last winter would never be broken. "Speed boats are much better," he said. boats are much better," he said.

The British sportsman was interested in reports of Ray Keech's preparations to break his record in Florida. although he is certain that he will never again defend his racing laurels. "It will be two or three years before the beach at Daytona is technically ready again for speed trials. Even if Keech or anyone else should break my record, then I'd still stick to my promise."

Entry of Major Segrave, two American drivers and American boats have aroused new interest in the races, al-though no prizes are offered this year. The big prize events of 1928 drew a much smaller foreign entry list,

Atlanta has led the entire south in retail business gains for the first four months of 1929, according to the monthly report on business and agricultural conditions of the Federal Reserve bank for the sixth district, which was made public Thursday.

Comparing net sales of 45 of the leading department stores in the district, the report shows a gain for At-

trict, the report shows a gain for At-lanta of 10.9 per cent for April, 1929, over the same month a year ago, while the rain for this city for the

on the April basis the next best city was Nashville, with an increase of 6.1 per cent, while Birmingham ranked second for the four-month totals, with gains of 0.7 per cent. All other cities in the territory showed losses for the four months as well as for April, with the average for the entire district showing a gain of 1.3 per cent for April and 0.1 per cent for the four months.
Weather conditions, such as exces-

sive rains and low temperatures, have retarded the growth of farm crops of the sixth federal reserve district, the review indicated.

Basing its opinions on reports from the United States department of ag-riculture, the summery said prospects for peaches and citrus fruits were lower than at this time last year.

Trade Larger.
Retail trade in April was somewhat larger in volume than in the same month last year, although slightly less than in March, the review said, while wholesale trade increased over March and was greater than in April, 1928. Stocks on both wholesale and retail firms were smaller than a year ago and collections during April were reported by department stores and wholesale dealers as greater than in March or in April of last year.

The volume of debits to individual accounts at 26 cities in the district declined slightly in April, compared with March, but was greater than in April, 1928, the review continued. It was also said that savings deposits

General Gas and Electric Corporation

The Largest Earth Dam in the World

The largest earth dam in the world is being built on the Saluda River near Columbia, South Carolina, by the General Gas and Electric properties.

Construction was begun two years ago, and when completed in the Fall of 1930, this development will give South Carolina one of the largest and most dependable sources of hydro-electric power in the world.

The dam will be 208 feet high; one-quarter of a mile thick at its base and 11 miles long.

The 914,000 carloads of earth fill required in the construction of the dam would make a train reaching from New York to San Francisco and back to Salt Lake City.

An 18-foot highway will run across the top of the dam. 78 square miles will be covered by the lake, which will be 41 miles long and 14 miles wide and have a shore line of 520 miles.

The tunnel temporarily diverting the river would accommodate a double track railway, being about 70% larger than either of the Holland vehicular tunnels connecting New York and New Jersey.

35 sawmills are clearing the lumber from the territory to be flooded.

Power to be Generated Already Sold

Before ground was broken the entire initial annual output of 300,000,000 K. W. H. had been sold under long term

In addition to developing the Saluda River project the General Gas and Electric properties serve the territory surrounding Columbia, South Carolina, and the prosperous citrus growing area of Florida.

The General Gas and Electric Corporation, the listed stocks of which are widely held and traded in, with its large holdings, exceeding \$100,000,000 in value, in the securities of widely diversified public utility enterprises, including the Associated Gas and Electric System and other affiliated enterprises, and with other possible and probable acquisitions, will share largely in the continued growth of the public utility industry.

construction on July 1.

The Mueller company, which has branch plants in all sections of the United States and Canada, in addition to its main plant at Decatur, Ill., low operates its southern branch at Dallas, Texas. When the Atlanta branch is erected, all operations in the southern states east of the Mississippi river will be controlled from here, the Dallas plant being for southern cities west of the Mississippi, Mr. McDonald

The Mueller company controls the output of well over 90 per cent of cast iron water pipes, brass goods and vitreous ware in this country, Mr. Mc-Donald explained. The Atlanta office, when in operation, will handle con-tracts and orders for vast sums annually, it was pointed out,

LEADERS SEEK PEACE IN FARM AID ROW

Washington, May 30-(A)-A prospective conciliation within the farm relief conference committee over the export debenture plan caused adminstration leaders to look forward confidently today to an all-summer recess beginning early in June.

A meeting of the conference has been called for tomorrow by Senator McNary, of Oregon, its chairman, While no definite agreement has been announced, resumption of the meetings has been taken to mean that the conferces have reached an understanding for the senate members to agree to eliminate the disputed provision opposed by President Hoover as a part of farm legislation.

The plan, contingent upon the enactment of farm legislation, is for the senate finance committee to work on the tariff bill during the recess and

be seen on the recommendation of President Hoover for the repeal of the national origins provisions of the immigration act which goes into effect July 1. Senator Reed, republican, Pennsylvania, is leading those favoring retention of the provision and believes he has the votes to defeat the resolution of Senator Nye, republican, North Dakota, for its repeal.
